John
Dear General Marks:

A brief note to thank you for suggesting and catalyzing the visit I made with my Exec to FTD last week.

Col. Watrous and all of his people were extremely hospitable. I hadn't been to FTD in almost 20 years and was very impressed with the facility. The briefings were informative, well done and just exactly the survey of activity I needed to get up to date. I was delighted that our joint efforts seem to be very well regarded by the FTD people.

Thanks again.

Sincerely,

Executive Director
